UNITED IS THE WAY™

Together we can help
every household succeed.

UNITED WAY
Weld County

United Way builds powerful partnerships to bring about lasting community-wide change.

At United Way of Weld County, we believe in the power of coming together – not just to talk about change, but to make it happen. As we look ahead, we're stepping boldly into a new chapter. One **grounded in partnership, rooted in impact, and focused on sustainable transformation**.

We will focus our energy on being **a convener, a connector, and a catalyst**. By Fall 2026, for example, we will transition operation of the Housing Navigation Center, including the shelter, to another nonprofit. This intentional shift allows United Way to focus on what we do best: **bringing people and organizations together** around a shared vision for a Weld County where everyone can thrive. By stepping back from service delivery, we can better **support the experts** already doing critical work and lead from behind the scenes–**aligning community needs with effective solutions**.

This is the kind of impact we believe in – and the kind of leadership United Way is committed to. This shift provides strategic direction that aligns with the needs of the community and the strengths of United Way. Not in the spotlight, but behind the scenes. **Not doing it all but helping it all come together.**

This work isn't easy. But it's essential. And it's only possible when we each bring our strengths to the table. That's the heart of Collective Impact – and that's where you come in.

Whether you're considering a first-time gift, exploring a business partnership, or looking for meaningful volunteer opportunities, we invite you to join us in this moment. United is the Way to a stronger, healthier, more connected Weld County.

Thank you for your belief in what is possible and for considering how you might walk alongside us in this new chapter.

With gratitude and hope,

Clint Dudley
Chair, Board of Directors

2025-2026 United Way Investments – Fund Sources

While the United Way of Weld County annual investment in community solutions is over $5.7 million, three-fifths of this amount comes from foundation grants and government contracts that can only be spent on United Way-provided direct service and collective impact backbone activities. Given this, only 15% of total United Way internal program-related expenses are funded through community contributions. **This means that the United Way board of directors is prioritizing programs at other organizations with your donations.**

Community Contribution Investments $2,136,193

- Direct Services at Other Organizations $1,041,616
- United Way-offered Direct Services $846,865
- Collective Impact Facilitation $247,712

Foundation Grants and Government Contracts $3,621,899

- United Way-offered Direct Services $3,404,532
- Collective Impact Facilitation $217,367

Collective Impact: A Proven Framework for Change

No single organization or sector can solve complex community challenges like poverty or educational gaps alone. Through Collective Impact, United Way facilitates cross-sector collaboration and shared goals, guided by data and community voice, to align efforts, measure progress, and drive long-term change.

Many nonprofit partners participate in the Collective Impact process without receiving direct financial support. Their involvement brings valuable expertise, diverse perspectives, and collaborative energy that strengthen shared strategies and advance community-wide goals. These organizations are essential to aligning efforts and enhancing the overall effectiveness of each initiative.
